eNLC Rules Adoption Hearing

See attached hearing minutes.

LLAM Committee Chair

Dr. Zickafoose reported Kenyette Walters will chair the committee.

APRN COMMITTEE

Dr. Castaldo reported the committee met on November 5th and stated there are currently 125 approved nurses with Independent Practice applications and all four roles were represented. Dr. Castaldo also reported that there have been some changes in the radiation regulations. Ms. Singh reported the change in regulations infringe upon APRN scope of practice. She was advised by the Deputy Attorney General of the Department of Public Health to seek an immediate waiver or exemption from the restrictions set forth in the regulations, which she is currently working on. The next APRN meeting will be January 7, 2019 in Conference Room A in the Cannon Building.

PRESIDENT'S REPORT

Dr. Williams reported the National Council/APRN Compact Task Force has an upcoming meeting in which they will discuss the APRN Compact. She stated there are currently 15 states with Independent Practice for APRN's that have a Transition to Practice clause. She also stated Virginia recently passed legislation which requires 10,000 practice hours. The aim of this task force is to come up with a set of recommendations for regulatory and legal changes.

Dr. Williams also reported the National Council has formed a Model Act & Rules Committee, which aims to optimize state nurse practice acts by identifying any variability in terms of scope, with the focus being on protection of the public. She stated they recently met earlier in the month and discussed disciplinary actions, and licensees defaulting on their student loans.

EXECUTIVE DIRECTOR'S REPORT

Dr. Zickafoose reported Hawaii is now providing license verifications through NURSYS. She stated there are four states that do not use NURSYS for verifications but all states report discipline through NURSYS.

The Practice and Education Committee will be meeting in December to review the annual school reports, which are due by December 1st

Dr. Zickafoose provided the *Journal of Nursing Regulation* to each Board member in attendance, and it includes the *Nursing Workforce Survey*. She pointed out the average age of an RN is 50 years old and an LPN is 52 years old according to the survey. She stated of the nurses that responded, 54.1% use telehealth technologies. There is an article on *Collaborative Practice Agreements and Their Geographic Impact on Where Nurse Practitioners Can Practice*, which found regulatory requirements placed on NPs are geographically restrictive.

Dr. Zickafoose attended the Scientific Symposium meeting and also met for two days for the Institute of Regulatory Excellence. Maryanne Alexander presented a new proposal called The Global Academy of Regulatory Leadership, which will include two tracks: credit based or a certificate program. There are three pathways: Regulatory Governance, Policy & Legislation, and Research Measurement and Operational Performance. All professions will have access, and it will be available to Board members and Board staff at no cost. Implementation of phase one will begin in October 2019, and implementation of phase two will start in 2020.

Dr. Zickafoose reported USH6 Bill expands APRN authority for medication assisted treatment for opioid use disorders by adding all four roles making NP authority permanent, and increases the number of patients they are eligible to treat per year (this statement needs clarification). Dr. Zickafoose also reported Pennsylvania House Bill 353 has been enacted, which makes changes to prescription requirements for certain controlled substances including requiring electronic prescriptions. New Jersey proposed a bill creating a one year pilot program to permit operation for overdose prevention centers for individuals, so they may safely consume drugs.
